We are not a web design company. Our primary focus is Internet marketing. Our intent is to partner with web design and traditional marketing companies and help these companies provide full service packages for their clients. **We are offering 15% referral of the SEO package for the first month, 7.5% on monthly maintenance fees.**

Our On-Page Optimization and Web Marketing consists of primary and secondary target search terms, analysis of client's industry, key phrase research, competitive analysis, content copywriting, meta tags, internal link structure, sitemap engineering, and much more.

Our Off-Page Optimization and Web Marketing focuses on search submission, link building, monthly text link ads, permanent directories, press releases, article syndication, online classified and social networking campaigns.

Our monthly continued maintenance includes performance reports, phone & email consultation and traffic tracking tools, as well as adding fresh content and generating new links to the client site.

Custom ala-carte packages are also available and include directory submissions & link building and press release submission, as well as all of our other solutions mentioned above.

We can bill your client directly or act as an agent of your company, depending upon how you want to advertise the SEO packages.

Please contact us directly for more information. We will be happy to work with your company to develop a relationship that is beneficial for both you and your clients.
